

## POLAR™ SERIES SPHERE MOUNTS PATENT PENDING

Presently, the common challenge within the industry is, DO MORE WITH LESS. Well doing more with less has been one of the strengths of Hubbs since our beginning. Hubbs Machine and Manufacturing, Inc. is pleased to introduce the new, cost effective, Sphere Mount **POLAR™ SERIES** Target Holder.

The **SM® POLAR™ SERIES** offers several features, the most prominent are:

- Small footprint (1.0" Diameter) for mounting in tight areas
- The new design of locating on the POLAR™ REGION of the SMR allows for Negative Rotation of the SMR, all the way around in an unimpeded fashion
- An o-ring sealed cap, provided with every **POLAR™ SM®**
- 17-4 PH Stainless Steel standard with optional 1144 Black Oxided Steel
- Same tolerances as our Classic **SM®** Series line of Laser Tracker Target Holders

The new **POLAR™** option is in addition to our Classic Line of **SM®SERIES** products.
